[1] https://erasmus-plus.ec.europa.eu/resources-and-tools/distance-calculator For example, if a person from Madrid (Spain) is taking part in an activity taking place in Rome (Italy), the applicant will a) calculate the distance from Madrid to Rome (1365,28 KM); b) select the applicable travel distance band (i.e. Between 500 and 1999 KM) and c) calculate the EU grant that will provide a contribution to the costs of travel of the participant from Madrid to Rome and return (309 EUR).

not covered by the Online Language Support (OLS), or if the participant needs further levels than those provided by the OLS in that language: EUR 150 per participant.

7. Preparatory Visit

   Costs linked to the implementation of the preparatory visit including travel and subsistence. Contribution on the basis of unit costs. 609 EUR per participant per preparatory visit. Based on the number of participants, including accompanying persons. A maximum of 2 participant per participating organisation can be funded per activity, provided that one of them is a young person with fewer opportunities who will take part in the volunteering activity.

8. Exceptional costs

   100 % of eligible costs:

   - Visa and visa related costs, residence permits, vaccinations, medical certifications, clearance requirements costs
   - Costs connected to personal insurance for in-country activities

   - Costs incurred by organisations to support the participation of young people with fewer opportunities on equal terms as others related to reinforced mentorship, i.e. the preparation, implementation and follow-up of tailor-made activities.
   - Contribution to costs related to the organisation of volunteering activities involving participants with fewer opportunities and costs incurred by organisations to support the participation of young people with fewer opportunities on equal terms as others related to reasonable adjustments or investment in physical assets.
   - Costs related to accompanying persons.

     For exceptional costs to support the participation of young people with fewer opportunities—such as reinforced mentorship, tailor-made activities, contribution to costs related to the organisation of volunteering activities, reasonable adjustments or investments in physical assets, costs for accompanying persons etc., applicants must justify that the standard funding rules ("Inclusion support" unit cost per day per participant) do not cover at least 80 % of the costs incurred.

     If awarded, the exceptional costs to support the participation of young people with fewer opportunities will replace the inclusion support grant.

   80 % of eligible costs:

   - Costs for providing a financial guarantee, if the National Agency asks for it (80 % of eligible costs)
   - Expensive travel costs for participants (e.g. from and to outermost regions), including for the use of cleaner, lower carbon emission means of transport which result in expensive travel costs (80 % of eligible costs). Applicants must justify that the standard funding rules (based on unit costs per travel distance band) do not cover at least 70 % of the travel costs of participants. If awarded, the exceptional costs for expensive travel replace the standard travel grant.
